EPA Region 9 Executes CERCLA Administrative Order on Consent Concerning Chromium Contamination in California's San Fernando Valley

On August 25, 2016, EPA Region 9 executed an Administrative Order on Consent with four parties potentially responsible for releases of chromium to the groundwater at the San Fernando Valley (Area 2) Superfund Site. The four parties are Goodrich Corporation, ITT LLC, Lockheed Martin Corporation, and PRC DeSoto International, Inc. The AOC requires Respondents to preserve a feasibility study, perform specific work (including groundwater monitoring) valued between \$500,000 and \$1,500,000, pay all of EPA's oversight costs associated with that work, and pay \$400,000 of EPA's past costs. Contact: Thomas Butler, ORC, 415-972-3869.
